SKILLS

- **C | Java | HTML | S C S S | JavaScript | React | SQL | MongoDB | Node.js | Express.js |**
- **OOPs | DBMS | Software Engineering | Data Structures & Algorithms | Git |**
- **Communicating skills | Presentation skills | Team player | Problem solving | Adaptable**

PROJECTS

SkillBridge Project / Freelancer Collaboration Platform

2025

- Developed a full-stack MERN web application to connect freelancers with businesses for efficient project collaboration.
- Implemented features like service listing, secure payments, real-time messaging, and an AI-powered chatbot for user support.
- Focused on scalability, user-friendly design, and streamlined project management for a global freelancing ecosystem.
- Utilized ReactJS, NodeJS, ExpressJS, MongoDB, Cloudinary, and OpenAI API for robust development.

Zero Hunger Project / Food Donation Platform

2024

- Developed by a 2-member team using the MERN stack to connect food donors including individuals, restaurants, and organizations with recipients such as individuals, homes, orphanages, and shelters.
- Built a dual-interface system enabling donors to list surplus food and recipients to request based on need, ensuring efficient redistribution.
- Promoted community engagement and sustainable practices aligned with the UN's Zero Hunger and responsible consumption goals.

PrintHub Project / Ecommerce Website

2023

- Developed a responsive MERN stack platform for browsing, customizing, and ordering 3D printed products for both individuals and businesses.
- Enabled secure login, product uploads, custom order requests, and real-time order tracking with a user-friendly interface.
- Supported file uploads, material & size selection, and inventory tracking; built as part of a 3-member team.
